When the Estimate was prepared for removing the Station to the new site, a bargain was concluded with the then President Block City Municipality that he would acquire the new site at Subbarayan Chattram Road and turn it over to the Electric Supply in exchange for our old site near the fort gate and that he would pay us a reasonable value for the old building. The sequel is as follows, the City Municipality acquired the new site all right & turned it over to us, but the owner objected to have his land taken away for the small amount which the Municipality paid him and went to go with about it. 21 The Electrical Dept agreed to give up the old A Station if the Municipal Council would acquire, at their cost, the site near the Race Course and hand it over to the Electrical dept and also pay reasonable Compensation for the old building. But the new site was acquired at the cost of the Electrical Dept, which has paid Rs 13,750 to the Municipal Council in this Connection. Therefore the ownership in the old A Station still vests in the Electrical Dept.

22 In view of the demand for increased power supply the Electrical Dept proposes to convert the old A Station into a Sub Station and to use it as such.

23 Mr Forbes says that one of the conditions on which the old site was acquired was that if it was not required for the Electrical Dept, it would revert to the Municipal

The Medical School which has become very popular is badly in need of accommodation but as much as can be found at present to construct a Medical School. The Rs 4 Lakhs building estimate for the Electrical Dept is yet not wanted for immediate use & so the best purpose is served by making the Medical School in it

To

SIR,

Referring to your letter No.L.6897/Med.112-21-2, dated 25th May 1922, anent using the old "A" Power Station in the Bangalore City Market Square for the Medical School, I have the honour to state that, if this building cannot be spared, provision will have to be made at an early date for a school building as it is absolutely impossible to conduct the School with nearly 100 students in the residental quarters of the Victoria Hospital. It is now in its 6th year and no effort has been made so long to build a Medical School. Great inconvenience is felt to lecture to 30 students at a time, as there are no rooms to accommodate this number. If there are no funds available to build a complete building, at least two lecture halls may be built according to the plans submitted and the school completed as funds become available. A site has been selected and set apart in the fort. Early orders are solicited as the matter is urgent.

I have the honour to be,
Sir,
Your most obedient servant,

K.B. Nyhozgaven

Senior Surgeon.
